

**ENERGY REPORT July 2022 -**

**THE ANGELIC PEOPLE AND A PROTECTIVE BARRIER FOR THE EARTH DURING THE ASCENSION**

*In some passages of the text I do not write directly for obvious reasons. To illustrate some phenomena better, I use the description of dual reality and the Earth calculation of time, although everything is happening non-dually in the now, anyway. I present some processes in the simplest possible way, so that they are understandable. Those who need to understand the text, will understand without any difficulties. The text is meant to be read with the Heart.*

First a summary of the passing June, because a lot has happened. In the previous report for June (published on May 25, 2022), I mentioned that a very intensive rebuilding of human bodies begins. And indeed this process started very intensively already on the evening of 28 May and was continuing with growing intensity until the end of 30 May. During this time, successively more powerful waves of light reached the Earth, which caused that **in some of the so-called Angelic People (including children) a complete energetic transformation to the completed 12 strands of DNA took place** (in about 30% - at the time of publication of the report). **This means that these beings are fully connected to the Cosmos and at the same time anchored on Earth. They are ready to transmute and anchor here on Earth the full spectrum of energies necessary for the planetary ascension** that has just begun and is yet to come.

**In addition, these descending waves of light in all people who had previously been treated with "life-giving elixirs** against the most popular ailments of the last two years" **restored their connection with the Soul.** This was an interference from the Supreme Space to support the survival of the human species. So as long as such beings do not make another trial to take the elixir they will continue their further evolution on an ascending line with the possibility of assembling more DNA strands in the following months. If they choose "the old way", they will return to the energy state before this intervention permanently, without the possibility of returning to the ascending timeline.

At this moment also **a part (about 25-30%) of hybrid beings** (having in their genotype partly the human genotype and partly coming from other cosmic races, not necessarily friendly to Earthmen, but with the majority of the human genotype) **also have the possibility to continue their further evolution on the ascending line.** In this group of people, 3 strands of DNA are assembled in their whole and - in some - partially the 4th strand of DNA. The next waves of light will make it possible, in the coming months, to assemble a minimum of some more strands of 5 so that it will be possible to continue further evolution on the ascending line. Of course, the original choices of the timeline - on a spiritual level - had been made much earlier. Now we only experience the physical manifestations of these choices in material reality.

However, the most interesting process that was fully manifested during these three days was **global disclosure**. It was the process that was known to happen, but the exact date was not visible in space. And I do not mean global disclosure of information, which has been happening for many months now and which I have written about more than once in many previous reports. This is about something completely different. It is about **global disclosure that brings worldwide transparency about who is who. It is now no longer possible to hide one's true spiritual identity in the energy space.**

Perhaps those who expected global disclosure to involve the mass media broadcasting for a number of days about who is who and what has been 'done to him or what he has done as a result' will feel disappointed. This disclosure has proceeded quietly, but for those who can look and see, it is in full view. In the energy report for March 2022, I wrote that significant was the process beginning (then) of scanning space and beings with a wave of specific light that anchored a specific timeline signature in each being. This signature is linked to the degree of spiritual evolution of a given being throughout its spiritual existence. It can be briefly said that "to each according to his merit".

And while in March this process was accomplished in the "preparatory" space, by the end of May this signature began to be clearly visible in the energy field of every being. And currently it can be seen without any problems. This means that **currently it is no longer possible to hide one's spiritual identity** (and consequently one's true intentions) towards other beings. In the coming months, **more and more people will also be able to distinguish properly who stands in the light and unconditional love, and who only imitates this light and in reality drains the energy of the receivers.** This knowledge may now be especially useful in relation to the so-called "spiritual market". It is worth to remember that the indicator of light and unconditional love is not the involvement in the awakening of others or the access to spiritual knowledge or certain insights. Because this knowledge - in the case of people imitating the light - is provided to them by low-astral beings in exchange for being a point of energy collection from the recipients. It does not flow from a direct connection with the Supreme Creator and Mother Earth, from the level of Unconditional Love. I am writing this without any judgement, since each being

has its own most adequate evolutionary path. It is only about comprehension of this phenomenon and its energetic consequences for unconscious people in such a way that they do not continue to feed it with their energy.

Once again, I want to emphasise that energy follows the attention, so it is worth to recognise with the heart. And be especially cautious about using the ready-made available formulas for purifying or releasing anything. It is much safer if you use your own words coming from the level of your heart. Then it is guaranteed that the energy goes where it should and does what is in the intention.

In the energy report for June I also mentioned that intensified high-tech activities are possible, the purpose of which is to lower the vibrations in order to stop the folding of DNA strands. Such powerful interferences took place e.g. on 15/16 June, when I observed a massive attack on people which caused knocking souls out of their bodies. However, these actions were blocked by the intervention of the Supreme Space in the form of a strong wave of light on 16th June and then the following days (visible in Schumann Resonance). Sensitives, if they experienced this, may have had a sense of a sudden energy drop or, for example, a feeling of not being themselves. For children it was possible to have unnatural and/or strongly emotional reactions, difficulties in contact or withdrawal or cases of sleepwalking.

As you can see, June brought a huge acceleration in energy processes on our Planet.

**July (and the following months) will bring the most powerful creation process (through the bodies of the so-called Angelic People with completely folded 12 strands of DNA) of an energetic protective barrier on our Planet.** Its purpose is to protect and secure the Earth Matrix of Time and Space (proper for the ascending line) from being drawn into the artificial matrix of the collapsing Earth (I wrote about these lines in the previous report), which is still being stubbornly pursued by low-vibrational beings ( for example through energy attacks and other trials to lower vibrations).

In July (although the first seeds of this process took place at the beginning of June) **the so-called "spins" will begin to appear, which means fully energetically compatible male-female pairs of people** (not necessarily partners and not necessarily adults themselves), **with completely assembled 12 strands of DNA**. The spins are the initiators of the creation of an energetic protective barrier for our Planet. They are also huge generators of high vibrational energy of Unconditional Love directly anchored on our Planet, which can protect specific areas from disturbances coming from the low vibrational timeline (while it is still co-present with the ascensional timeline).

**The energetic protective barrier will grow in the following months as a result of the connection of more Angelic People with completely assembled 12 strands of DNA in the energy space.** They already have a fully functional crystalline body ready to transmit powerful doses of energy with no health damage. Technically speaking, each such person "vertically" is connected to the Crystalline Matrix of the Cosmos and the Crystalline Matrix of the Earth. And "horizontally" is connected through the heart chakra with other Angelic People of the same abilities. Each new being joining this network is strengthening it and, at the same time, anchoring it territorially in the place where it is.

It is interesting to see the beginning of this protective shield coming out of Poland. In the report of October 2021, I wrote that "Poland will play a key role in the energy transformation of our entire planet in the coming months". And in July this will begin to happen in real terms. I am far from having any nationalistic inclinations when writing about Poland. I only mean that it is the place where most beings with the highest energy potential are located. It is the result of, among others, already experienced karma (I wrote more about this in the report from October 2021). These beings in the first place ( against other geographical regions/countries) were able to put together all DNA strands, and some of them - additionally - to merge into spins.

The creation of this energetic protective barrier is the original purpose for which the Angelic People now have appeared on our Planet. And these are incarnations for which each of such beings has been preparing for a long time. **The Angelic People, through** their ability to anchor high vibrational energies on Earth and **to create an energetic protective barrage, are helping to secure (and will continue to do so in the coming months) the Earth Matrix of Time and Space in the process of final separation from the artificial matrix of the failing Earth. This is real action of crucial importance (even though it is happening quietly in the background), for the liberation of the human species from a multitude of years of energy exploitation.** This is the real basis for a correct understanding of all events that have been happening especially recently in material reality.

I wish each of you reading this report the full manifestation of your own Divine potential here on Earth.

I also encourage you to read the earlier series of energy reports available at <https://architekturaosobowosci.wordpress.com/>. They not only carry information, but most of all, they anchor new energies in people and allow you to maintain a higher vibrational level.
